Special Thanks:

Sincere appreciation is expressed to the many individuals who spent considerable time and energy working on the development of this report. Special thanks are offered to Mike Moder who facilitated, researched, wrote and compiled this substantial report.

Appreciation is given to the CHIP Board of Directors, the leaders of health-related organizations, who generously supported this project, and to their designated representatives on the CHIP Steering and Charting the Course VI Committees for their continued input and support of this report.

The Charting the Course VI committee, under the direction of the steering committee, began planning this assessment in late 2009. Much thought was put into creating a process and document that would be both useful and enlightening to healthcare organizations, community-based health and social services organizations, and the community in general. Gratitude is expressed to all of the committee members and, in particular, to the committee's co-chairs, Ms. Anette Blatt from Scripps Health and Mr. James Beaubeaux from the San Diego County Medical Society.

Special thanks are offered to the County of San Diego Health and Human Services Agency, Community Health Statistics Unit for providing data, analysis and review.

Additionally, Community Health Improvement Partners would like to thank:

- CHIP Staff who professionally and efficiently facilitated each of the six regional meetings;
- Eric McDonald, MD, Project Specialist, Safety Net Connect and the new Deputy Public Health Officer, County of San Diego, Health and Human Services Agency, who offered his unique insight and expertise to the project;
- National University, hosts of five of the six regional meetings in their beautiful campus' across San Diego County;
- First United Methodist Church of Escondido, hosts of the North Inland Regional Meeting;

Charting the Course VI was funded by the SB 697 hospitals in San Diego: Kaiser Permanente, Rady Children's Hospital and Health Center, Scripps and Sharp; Sharp Health Plan; Alliance Healthcare Foundation; The San Diego Foundation; and Mental Health Systems.
