### **Community Health Improvement Partners Announces New President & CEO, Peter Mabrey**

Former Scripps Health Executive has strong roots in community health

San Diego, CA. – Community Health Improvement Partners (CHIP), a San Diego nonprofit organization, announced that its Board of Directors has appointed Peter Mabrey, FACHE, as the new President and Chief Executive Officer to lead the organization into a new phase of operation. Mabrey joins CHIP with more than 20 years' experience in operations and business development.

"After thorough succession planning and a comprehensive search process, the board is pleased to welcome Peter to the CHIP family. He is a skilled leader, with a clear understanding of the challenges and opportunities of community health, and the role CHIP will continue to play. As we move forward with our important work to advance long-term solutions to priority health needs through collaboration and community engagement, Peter's leadership will be crucial to continuing our mission" said Jolyn Parker, Board Chair of CHIP.

As an executive at Scripps Health, Mabrey served as the director of medical management, director of business development and physician relations, project manager with the Office of the President and community relations manager. Mabrey's experiences include physician recruitment and practice acquisition, strategic planning, and project management for integrated healthcare systems. Peter also has a strong background in community relations and community health. Mabrey holds a Master of Business Administration, Healthcare Management from University of Phoenix, San Diego, California; a Bachelor of Arts from University of Michigan, Ann Arbor, Michigan; and is board certified in Healthcare Management as a Fellow of the American College of Healthcare Executives, Chicago, Illinois.

"I'm honored to have the privilege of working with CHIP and looking forward to building upon the organization's outstanding track record of supporting communities where all can have the opportunity for health equity." said Mabrey.
